PA106/G/28715/25 - JUSTICE CHIRCHIR

Water Bill Calculator (C Program)

```c
#include <stdio.h>

int main() {
    int units;
    float bill;

    // Display title before input
    printf(" PA106/G/28715/25 - JUSTICE CHIRCHIR\n");
    printf("         WATER BILL CALCULATOR\n");
    printf("=======================================\n\n");

    printf("Enter water units consumed: ");
    scanf("%d", &units);

    if (units <= 30) {
        bill = units * 20;
    }
    else if (units <= 60) {
        bill = (30 * 20) + ((units - 30) * 25);
    }
    else {
        bill = (30 * 20) + (30 * 25) + ((units - 60) * 30);
    }

    printf("\nTotal water bill: %.2f KES\n", bill);

    return 0;
}
```
